

# ATELIER MAÎTRE ALBERT

RESTAURANT AVEC GUY SAVOY

## A highly contemporary rotisserie in the heart of old Paris

In between the log fire in the grate and the meat, poultry and fish in the rotisserie, guests choose their own tables, round or square, in sparkling grey slate. Soon, the duck fillets, monkfish tails and pork spareribs are carried from the roasting spit to the guest's plate. The tone is set: broad plates, first-rate produce and authentic cuisine.

For those who wish to escape the heat, a wine bar and library drawing room are close at hand.

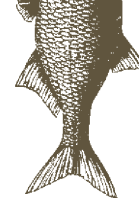

After having remodelled the interior of the Guy Savoy restaurant, Jean-Michel Wilmotte set to work here: an austere décor, using the finest materials and making use of impressive volumes.

L'Atelier Maître Albert is managed by Laurent Jacquet, a long-standing colleague and now associate of Guy Savoy.
